

# Rack Mount 4/12 Call Processor

Saves money by more effective use of expensive phone lines. Provides precision inbound call routing and rapid outbound line hunting in the same unit. Advanced circuitry is transparent to the communication process. Barge-in protection for security.

## Save Hundreds of Dollars per Month!

Average Business Phone Line costs \$40 per month. Line-sharing technology can cut phone line costs by 2/3 on Faxes, Modems, Direct Lines, Credit Card Readers.

— Works with virtually any phone line application!

## Flexible and Consistent Applications

Precision call routing and hunting.

— No more misdirected calls.

## Inbound Routing

Distinctive Ringing allows precise inbound routing of calls. Direct/Private Phone Numbers (not on key system or PBX) permit tremendous application flexibility.

— Integrated 'Barge-In' Protection provides total security.

## Outbound Hunting

12-Port hunting matrix rapidly seizes available outbound line.

— Add equipment without having to add phone lines.

## Point of Sale and Polling Applications

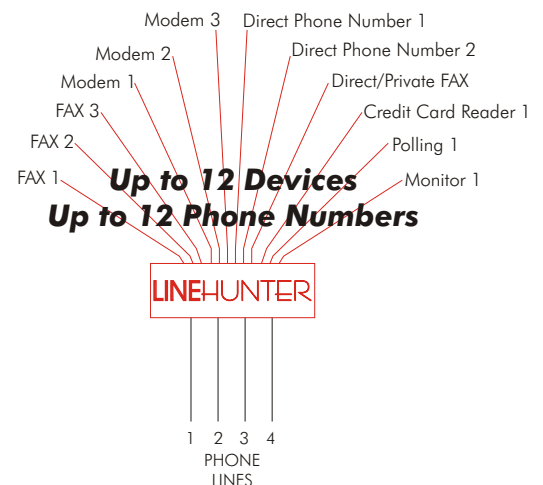

Immediate customer transactions (POS) and modem polling.

— Choose any line/port configuration - fast access to lines.

## Direct InBound Routing To 12 Independent Devices

## Rapid OutBound Hunting All 12 Ports Hunt for Available Line

## Flexible Applications

**Concentrate Phone Lines - Save \$**

# LINEHUNTER

*Expanding Communications*

## Rack Mount 4/12 Call Processor

Advanced Line Sharing Technology  
12 Devices Efficiently Use 4 Phone Lines

### Precision InBound Call Routing
