

# What does it **COST** you to run a **service call** an hour away?

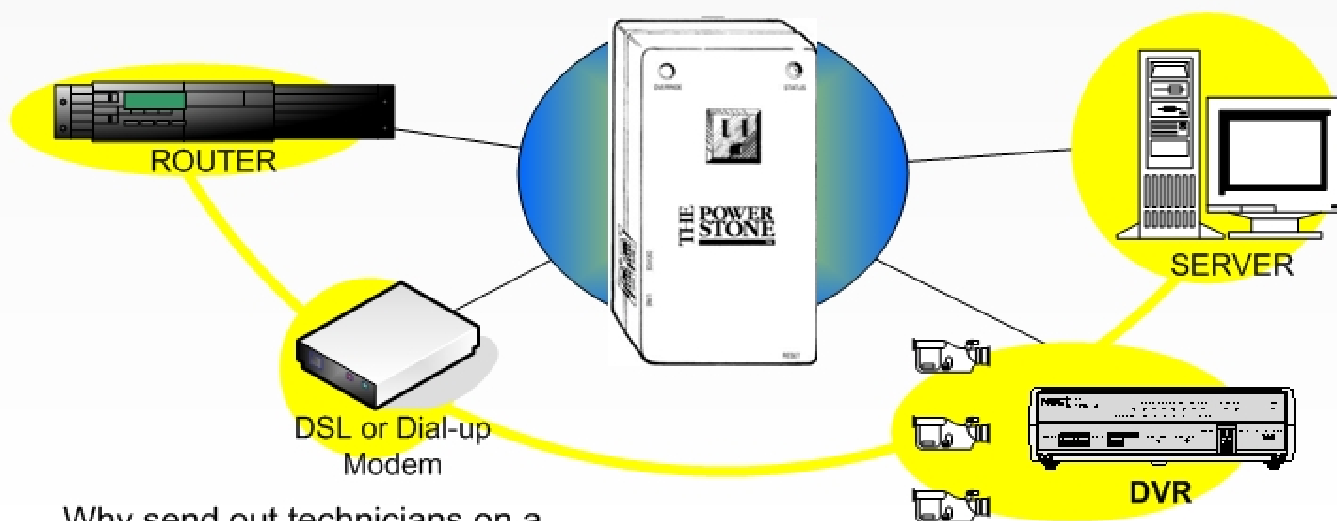

Tired of warranty service calls eating at your profit?  
Increase *profit*, Decrease *downtime* with

From the makers  
of The Stick!

The Power Stone by Multi-Link is a telephone call activated AC power controller. With a single phone call to remote equipment, The Power Stone can be used to check current power status, detect past power outages, and reboot on command.

Highly effective at reducing costly, on site service calls!

Why send out technicians on a warranty call when you can handle it with a simple phone call?

Bundle **The Power Stone** into your service or product and sell as a package deal!

**NEW!** Also, Try the **INTERNET POWER STONE!**  
Power control by Web Browser!

**The Power Stone:**

- > Quick ROI - Pays for itself with a single use
- > Toll Free Tech Support
- > Practical - Saves Time and Frustration
