

THE STICK™

DESCRIPTION

The Stick™ is an automatic call processor that screens and routes all voice, fax, and modem calls to the right equipment every time. Hook up to three telephony devices plus an answering machine on one line.

The Stick screens each call for CNG fax tones, pulse, and touch tones and then routes the call to the appropriate equipment, leaving other phones/devices undisturbed.

Eliminating dedicated fax lines and incorporating the line sharing technology of The Stick adds up to giant savings.
